• Describe the location of your traffic concern:

• Describe your neighborhood's traffic concern in detail:

After receipt of this application the City of Fairway will define the limits of the impact area and submit a survey to the neighborhood representative prior to proceeding with any further evaluation. The attached survey should be circulated to all residents living within the established impact area upon the notice to proceed and returned to the City of Fairway. Properties without signatures will be counted as “negative responses”. More information regarding the Traffic Calming Program can be found at the City of Fairway’s website: www.fairwaykansas.org. By initiating this request, we understand that if any engineered traffic calming treatments are implemented they will follow all applicable standards regarding construction and signage including but not limited to the Manual of Uniform Traffic Control Devices (MUTCD).
