**At the Public Forum, residents suggested several possibilities for the future of City Hall. PLEASE NOTE: The City has not formally contacted any of the businesses or organizations listed below about the acquisition or prospect of their property. These are only IDEAS expressed by residents attending the forum! Other options listed at the Public Forum were sharing space with Westwood City Hall and Stroud's Restaurant. These two locations are currently not available. Rate each location below using this scale where "1" indicates that the City should definitely explore the location as a possibility and "5" indicates that the City should not explore the location as a possibility. You can also add your own suggestions in the comment section below.**

**Public Works Facility**The Public Works administration building was acquired by the City in 1997. Prior to this time, the 3-bay garage located behind the Public Works administration building had been Fairway's only Public Works Facility. Since 1997, new laws governing environmental protection have caused operational challenges for the Department. A recent space needs assessment conducted by the City showed deficiencies in the size and space of the facility, associated with inefficiencies in the Public Works operations (the current facility is one-third of the recommended size). Short term road closures on Buena Vista and delays in service delivery are just two examples. Rank this broad issue based on the overall Vision of the City.

**Shawnee Indian Mission** State budget cuts have reduced funding to the Indian Mission in recent years. These reductions could potentially impact hours of operation, routine maintenance and/or grounds keeping. Should the City of Fairway look for ways to support the Mission? Rank this broad issue based on the overall Vision of the City.

**Stormwater Management**The City of Fairway currently has 31 homes in the floodplain and experiences flooding on State Park Road and Brookridge Drive during major rain events. The City has undertaken stormwater projects in the past to address stormwater management. A Fairway Floodplain Committee was established in 2010 to continue to look at stormwater issues. A Rock Creek Watershed Coalition was also formed among cities in Northeast Johnson County in December 2012 and Johnson County is currently paying for 90% of a study to review previous stormwater management projects within the Rock Creek Watershed. Rank this broad issue based on the overall Vision of the City.
